EDUCATION

Visvesvaraya National Institute of Technology (VNIT)

Computer Science and Engineering - **CGPA - 6.17**

11 2022 – 06 2026

Nagpur, Maharashtra

Prince Uch Madhyamik Vidyalaya

PCM - **Percentage - 88.83%**

2021

Sikar, Rajasthan

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Network Security
- Database Management System (DBMS)
- Machine Learning
- OOPS Concept
- Web Development

PROJECTS

AI News Summarizer 🔗 | GPT4All Streamlit

04 2025

- Developed an AI-powered web app using Streamlit to **fetch, summarize, and evaluate news** articles using **GPT4All** and **DeepSeek** LLMs.
- Integrated **multi-agent** architecture with a **local LLM** summarizer and **OpenRouter**-based quality checker to ensure accuracy in AI-generated content.
- Secured **API keys** via **.env** and structured the project for **open-source** deployment with GitHub, including clean documentation and dependency management.

World Happiness Report Analysis | Pandas Numpy Matplotlib

10 2024

- Executed a complete **data analysis workflow**, from **data cleaning** and wrangling with Pandas to identifying key **correlations** with NumPy.
- Performed statistical analysis in **Python** to identify and quantify the key drivers of happiness, revealing a strong **correlation** between a nation's GDP per capita and its overall happiness score.
- Developed a suite of **data visualizations** using **Matplotlib** and **Seaborn** to clearly communicate complex global trends and country-specific rankings to a non-technical audience.

Player Retention Analysis for a Mobile Game | SQL

04 2024

- Analyzed player behavior for a gaming company by writing complex **SQL queries** to **join** and **aggregate** data from **multiple tables**, including **users**, **transactions**, and **sessions**.
- Developed a player segmentation model using **CASE statements** and **CTEs** to categorize users into **groups** like "New," "Returning," and "Inactive," providing a clear framework for retention analysis.
- Identified a **critical drop-off** point in player engagement between the first and second weeks, delivering an **actionable insight** that could guide targeted re-engagement campaigns.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL, MongoDB

Developer Tools: VS Code, IntelliJ Idea Ultimate, Jupyter Notebook, Docker

Technologies/Frameworks: Linux, GitHub, ReactJS, NodeJS, ExpressJS, Git, Mongo

POSITION OF RESPONSIBILITY

AXIS'25

2025

Event Manager

Nagpur

- Planned, organized, and executed events from conception to completion, ensuring smooth operations.
- Oversaw event promotion, on-site management, and post-event evaluation to maximize success.
